Brot home new journal books this day.  
Cost 70¢ each for binding. Also more cheap  
small books to Alice who had injured - at 6  
cents - very near the latter.

Call on Mrs. Brown.

Depos. 478.5 with Loring & Co.

Goldfinch tells me about Smith's  
dealing with him. In Dec. last L.  
gave him what purported to be invoice  
of goods ord. from Ryf, with 10% Com. chg.  
Now another invoice of a new lot of  
good. S. had been told to call for the  
orig<sup>l</sup> invoices. He did so & found differ  
in some articles of 12% - in others more  
in others 25%. Thus L. tells him was his  
profit and no Com. was to be charged.  
S. says there were coffee socks charged in this inv.  
thus without Com<sup>r</sup> at same prices as in last with  
Com<sup>r</sup>. He doesn't think the thing can be nailed; he  
wishes it done by one way or other made sure. He

asked L. to show him origl. invoice of  
Dec. L. says the papers have been destroy'd  
by rats, or injur'd, so that he destroy them - done  
in Youngs Store. He told L. he w<sup>d</sup> rec. these  
goods & pay for them, but never have any  
more to do with him in bus.

Heard today Blanco is coming; and  
Castillo goes again to Santiago as mi-  
nistro de Hacienda.

Page says it was off for Urumbuta -  
he consented on condition of naming  
other members of Cab. not agreed.  
Atturton sick in bed with cold -  
Castor oil on chest.

Both babies well. James speaks of  
new ones named - as John. I hardly know.  
Went in to see Atturton, who is ailing with a  
cough & cold - took tea there.

Sat. Oct. 4, 1856.

Awake in night - rose late  $7\frac{1}{2}$ .

Old man had not enough to fast for  
servants - when I ask why said work  
was so heavy & not do it - had.

better take a new cook in her place. She  
tastes drink the servants say.

Mrs Miller call - that no harm done  
to us for her M. says, out of circle.

but thinks inexpedient now.

No study at Chapel this week.  
Fall of rubbish. Livingston thinks  
Edifice damaged 1000 - so I fear.

Est. sermon on Heb. 4/7 - hand for  
tomorrow on "rest remaineth".

Sund's Day. Oct. 5, 1856.

Morning, Heb. 4/7 - exposition rather confused;  
practical part better. Good attention. Almost  
of vessel at rest, when all draws, pleas  
for 2 ship masters, as their faces show.

I. School today removed to chapel, bec.  
of rent - too heavy.

Williamson stopped for Sp. Sects. ag-  
ain. Walked down with Lizzie, Alice and  
Fanny - Mr & Mrs Cackhain.

Eng. No. 1 Cor. 9/25 "Corruptible  
crown" - very few present. Leach  
walked down with me, and then went  
back. He said "we can't expect men of  
the world to come to church when Prof. Eng  
don't do it". Not men should did not wish to, <sup>hear</sup>  
the cold beef & look glass gale  
after coming home - passed disturbed  
night.

Mon. Oct. 6/56.

Violent Headache - bathed in sea  
- but it continued, nearly all day.

Old Maria, cook, cross.

David not well - bowels disturbed - gave  
Cast. oil. Wife sat up in chair a  
little. David very happy.

Looked into Gillis' book at atten-  
tions.

Quest<sup>n</sup> sprung up betw. Archb'sp's balio-  
nists and Supr. Court. He refuses to  
submit to decision of court. An under-  
standing was reached in Cathedral at St. Jo-  
se. The Canons said it belong to the chapter  
to remove him - Bp's Vicar did it, and so  
invaded their sphere - they disobey the order - Bp.  
suspended them a divinis - they appeal  
to bp. of Cagimbo, and claim during the  
appeal to go on with their duties. Bp. 3<sup>d</sup>  
no. They carry case to Supr. Court, who  
decided their suspension did not hold,

during the appeals. Bp. openly refuses  
to submit to this decision, as an  
inroad on his eccles. powers.

Mrs. Sprague came back if I could take  
charge of her receipts - that she has paid all  
her debts - says R. Loring is not willing to  
give her a receipt for the bill of passage  
she has paid. She was going dressed. I  
wonder why she came.

She thus came down to tea - left Loring  
to entertain him.

Two E' quakes since noon - strong  
shocks - ran into house to be with wife.

Reunit'g old journals into uniform

speak as if they read God's word  
and loved it - to day the Psalm.

on Mrs Duncan - spoke of  
her anxieties abt Mrs Duffin. I  
ask'd if Mrs D. had 4 prunes.

She answer she had told her so - feared she  
might not be capable. Apologized  
for saying so much to me, but was ang.  
I told if Mrs D. were on her feet she'd  
see her. Recd. Mercedes & off to have  
a gift sent to her - wish I could. Mrs  
Cutts was there.

Spoke with Giffen at Engl. Hosp. - very  
low - read fr. Romans 8<sup>th</sup> and illust. of  
salvation thro' of discipline of ship.  
Saw P. Knapp at Am. Hosp. - mind  
more weak - 48 yrs old.

Robinson walks on B' water - told  
all Occurrence of ship Jane, who had  
defamed them about their Bills, and a  
man Thompson with him - gone  
to N. body. Pecun. is high Calvinist.  
He says we was arbitrated of G. R. St.  
Cameron on O's side & Duprat on thine,  
and Iust. am. fully - Stevenson he has heard  
said charges were less rather than more.  
R. H. Gott. says. Has been a great  
wrong to them.

R. agrees ought to see Lindsey, and with  
to mon. at 4 p. m. I am to inform  
L. of note.

4 p. m. I did of note.

Paid Jas. Blake's bill, \$5.4.

Letter to Alice in P. office from Geo. Jefferson. In this he will hand me his fairing. He finds fault that she did not give Mrs S. the explanations he desired her to - charges her with ingratitude to Mrs S. and affects to be more afflicted at that.

Coming home wife better & David's life set up Jan. 12 to 4.

Borrowman and wife seem very glad to see me; so did Hugh Mason, and wish to come down and see me.

since 10 a.m. Page thinks will all come  
right again - that's not looked at.  
We sat up several hours today.  
Met Robt and Lindsay at Chapel St. off  
ready to hear anything. That Blaker did  
not act as a jerk in complaining thus  
after bills had all been settled & notes  
given. Said B. had within 2 weeks lots  
goods of him. Ab<sup>d</sup> Goldfinch said he  
did not rem. being agreed on com-  
mission, when sent him his bill; and  
his reminded of it, full back on 10%  
at once. I told him G. that he meant  
to charge com<sup>mission</sup> beside. Found bill  
Chas about 13%. Told him of Col-  
lin's and Bruce's complaints.

I suggest meet Blaker - he was  
quite willing. Advise him to back ch.  
to investigate these charges. He'd have  
to do so. We agreed a meeting of Ch. St.  
he call for Mond. E. at 7 1/2 o'clock note  
on morrow, as he'd Chas'd night  
wasnt the matter. As I urged that  
all sh<sup>d</sup> come up - he seem'd to hesitate

at the Groggery of us, here so long gone.  
Lecture was rather satisfactory  
I remained at Chapel till half  
past 12. Met in Chapel.

Read 17<sup>th</sup> Isaiah & 24<sup>th</sup> of 2 Kings, the  
history of same. I never had more  
satisfaction in Tr. than in reading that Chapter.  
Mrs. Hanson stopped back about wife  
and Chas. walks with her.

Walked down with Don Blas Cuinas.  
St. in at sundown.

Cuinas says Stokes, "Peca mil veces  
manos ahora por el Gas - ruyaban  
siempre a la policia etc."

for my miller of Stirling as  
high & adding if anyone had  
my charge was exorbitant. On the  
whole the one groomer was kind to  
me S. Simpson spoke rather reck-  
less I thought the stories from  
Ygingue - using words "tipsy,"

Archbys. has been exalted / Sup. Court  
to yield to its decision & restore the two  
Canons, under penalty of banish<sup>t</sup>  
from the country. The press sustains  
the Govt. So do those persons I meet  
with; but in Santiago there is a good

deal of heat & controversy.

Atanton said, when I said bishops  
had laid very heavy pen<sup>t</sup> on the  
Canons in suspending them for  
their remonstrance, he had heard  
Meneses had once as a lawyer  
had a quarrel with Valdivieso & the  
latter had always return'd a good

more as a fruit of faith.

- while expectation brings, also the  
order deepens sense of need.

At end I got confused - more than  
ever before - and having not a word  
more to say had to stop.

Thurs. Dec. 30. 1856.

Robinson - Catv, we went to see  
Porter about 2 Slavery girls - he out-  
spoke our Spanish.

Catv on Prince about his sugar  
with Lindy - F. L. brot 6 ory  
samples - he liked one of Dutch  
crust, ref - there was no gran-  
ty question at all - when  
came some barrels of sample  
& bags of light - Bro. Havana.

But among these there were 3 bags of  
new, dist. refuse sugar. Sunday  
in a note to the Com. acknowg<sup>d</sup> there  
were 6 bags darker than the rest.  
Bruce said S. tried to laugh it off  
I that prob. he had hoped to get  
the 3 bags along unnoticed - tho  
he claim<sup>d</sup> having paid same price  
for all.

At Eng. met. church.

Simpson reported had seen Capt. Jas  
Gardner - that Seymour said G. had  
spoken with him on Sabbath, to engage  
him as m<sup>an</sup>, lying in his G's store at  
the time - & adding we took glass of brandy  
over it. When Simpson said, I that  
he was a latotaller, Seymour answer<sup>d</sup>  
"I have often helped him up hill & daugh  
when scarcely able to go" tho drink.

It was voted to put off his case  
2 mos. and let Simpson & Mac-

shall Com. to see him further.

Passing then to Lindsay's case -  
Robert read certain replies prepared  
by M.L. - and then Cairns reports  
concerning him for want of straight-  
forwardness & cautioning him for  
future. I said it was nec. to be  
thoro' or else the fault's Chas' on  
M.L. & come back on the Church.

Robt. mentioned invoice paid by Mac-  
Intosh for tools - made out "Lindsay to  
come on in Glasgow" - whereas after an  
other invoice was sent by Gregory, Jun.  
S., with sa. art. much less in price.  
This seem'd to confirm charges of other  
invoices being salted - and as Mac-  
Intosh said he wd move M.L. he suspen-  
ded - I drew up resolution re-  
commending the Com. to same Com.  
Williamson, Robinson & Marshall  
& Ham. & report further - and in

mention he has suspended from.  
drac. Duties & Ch. Members. -  
a. Linington, said same while not  
more proof - so it was "against him to  
visit from" &c. Man<sup>y</sup> pass.

Got home 11 1/4 p. m.

Friday. Oc. 31. 1856.

At home all day - writing letters for  
mail. Mr Cockhain with S. Id.  
might be held elsewhere, hec. Mr C. had  
rather not have it in his house, tho' fa-  
vorable to such schools - & with her  
to go with him to the denunt<sup>y</sup> in p. m.  
I was told Rob<sup>t</sup> Know.

Dr. Mr Lindsay came - had note from  
Mr Marshak at action of church.  
That it seems that effort made to  
raise up nothing - spoke as if there  
was other mot. - I said I was sure  
there were no such mot. activities

the ch. - nor anyone else that.

He said he had done many - not him-  
straight for. I did not admit, at first,  
having charged invoices - but afterwards  
did, that had charged profits & then  
commission, but I said I had been  
no diff. understanding that only Com.  
I had charged.

I said that all his goods had been  
very high to be had. He said with only  
a Com. who could he risk. I  
answered, no matter, it contained an in-  
surmountable charge both. He finally  
said he did not wish to complain  
of others, but to speak very kindly and  
own his own fault - wish to have my  
counsel & put me under my protection.

Maintain he had not charged & constant prof-  
its - counting profits & Com.

I said that he seemed to have understood  
a diff. Com. was to be charged - & he had

Known they underst<sup>d</sup> so - tho perhaps  
he had not said so in so many  
words.

I then advised him to tell the Com.  
just what he had done  
- if he had any profit & then Com.  
- if so, why he had  
- And then state what he now  
thought of it.

After a little he said he would  
do so - ask my prayers for him  
that he might be able to state all.  
I pray with him.

Yest. spoke with Tar. Roy - said  
Ore. had spoken so at 2. that  
had him arrested & arrested  
him, & did not think both P. & R.  
live in same house. I urged her  
claims & urged him to yield in all  
he could. I the best - command

of see at times - Had never spoken  
of it & am sure I sh must go no further  
I asnd him it sh not.

Lang comm<sup>n</sup>. with Guimaraeus  
about Gospel - spoke of readg Bible -  
insur'd it without notes - w<sup>d</sup> not  
allow any one to speak after him.  
at his table. Really he spoke well.  
Woud have pro. Brown & hiso after  
many 2<sup>th</sup> or 3<sup>rd</sup> all vegetables.

Atenton has 2 spoken & same effect.  
- says now Lawrence came to Boston  
& gave with only 10 \$ - & gave away  
639,000 \$! Speaking of Guirel,  
see, had told him right do well  
if w<sup>d</sup> not cheat as of old! "As  
he had come & borrow money it  
was atime to speak plain".

than they are in H<sup>u</sup> - at 11<sup>th</sup> hour no  
heart to turn - do old men who  
have lived in sin come to church?

Mon. Nov 3. all day at home.  
Mr Lindsey came down. He says in  
Goldf. 1<sup>st</sup> inv. he finds a diff. of 3£  
in the remittance - that Ch<sup>y</sup> wanted all  
profits as well as Com. inc. charges  
were so heavy knew he w<sup>d</sup> object to  
them - He admits having Ch<sup>y</sup> profits and  
Com. both, tho maintains he has not  
Ch<sup>y</sup> exorb<sup>t</sup>. Complains that an

Effort is made to find w. thy. q. N.  
him & thinks it rises for money  
feels to him. He says he has done  
many in not having clean under-  
-standing of the force - but does not  
own dishonesty.

old - her husband was 26 - said she had, in  
going about w<sup>th</sup>, without means of  
grace &c, wanted for. But - but her hope  
was in God. She spoke like a D<sup>y</sup>.

I pray with her. Her husband was very  
resigned - he respected religion. She  
had not felt willing to speak with him  
when in pain - so her relief she had  
desired to have him rest. I pray with her.  
I was glad to have seen her.

Met Ancestry, Bennett,  
Thomas at Chapel today  
(first at Bolsa, then went there).  
Wish to know our plans. They  
wrote you to plan of Co-op-  
eration, insist on Coalescing  
forms done. Soc. to buy the  
property, and have sep. man-  
agt. A. & D. laid great stress  
on income for indigent - car  
for that alone.

I don't think now we can  
raise the money except in  
great measure and on ourse.

Then plan is let us own an  
own gristmill - & a school,  
but not sectarian. They are sure  
can raise 12,000 \$.

Waggon to present the matter  
to Congregation

When I spoke of difficulty of raising  
12 thous, as the uniting Church in  
hand - they spoke up with courage  
that that money (for ch.) was all  
raised now.

I heard 10,000 was paid for land  
2000 more at 5 \$ - Ch. edifice at cost  
say 10,000 - if parsonage 7000 = 27,000  
and if on this 12,000 more can be raised  
so readily - try least it is gratifying.

I will fall in with this plan, if  
I did not fear, lest in some future  
time, we may be less strongly repres-  
ented & be thrust aside.

Mr D. did not appear to approve  
the meas. He doubted the end of the

School for Paris Ch<sup>ch</sup>; that it sh<sup>d</sup> be  
for indigent Ch<sup>ch</sup> Chieff; spoken of  
Lington's as well conducted; & not  
so for hythw Education in it;  
paying & non paying Scholars & not  
be very practicable, yet admitt  
thos new few schools any where that  
had not some on chair; & if no  
means cooperate only Coalesced; but  
at other lots of ground instead of  
this - an error that w<sup>l</sup> be made by  
lower in Alexandria.

Jas. Call'd at Sandown.

Friday. Sep 20/57.

Writing at chapel an No. 503.

Lornie told Jane D. Page had spoke  
often of stuffing David Day before -  
J. ask him what he meant.  
He said L. told him she had  
given him too much to eat.  
She call L. in at once, who  
denied having said any such  
thing.

Met young Schroeder on way  
to Lund. School Trach. metg. He  
went - then came & slept here.  
Lesson 1<sup>st</sup> Psalm. I said I did  
not know any proof even  
had compared it - nor that  
it was introd. to whole book,  
any more than 15<sup>th</sup> Ps. is.

Sat. July 21/57.

Early morning esp. ship on  
fire in bay - burnt to water -  
Cargos in, 80,000 f.

Rode out with Lovie on Str.  
house. He does not ride this  
week. I bath at fish<sup>er</sup> bay.

At 10 called with Linslow,  
and Blake on Mrs McDear  
about loaning castor paws.

She denied & acknowledged - I  
had done it with good motives  
- bawled the poor creatures to  
get bread - When charged with  
doing it on Sunday, she said  
they were in want of food and  
I'd see them hungry. I told  
her the real mo. was to make  
money, and she'd see herself  
and tried to dec. us. At one

then she gave way and said she  
w<sup>d</sup> rather join up her members.  
in this Church, than be liable to  
be so misused - that in  
this Ch. there was so much ill  
feeling. I told her the Church  
had been kind to her. That  
the Chileños had been more  
kind than her own country  
people. She denied that she  
lent them money on pawn  
with high interest (I think  
at any at all). Tho' after  
she admitted it was a media  
a mo. on a dollar - This is  
75 % a year. She says the  
usual price is a real a  
mo. I assured her the Ch.

felt great sorrow hearing  
what she had done.

She at last agreed she would  
do no more - tho it was  
hard to get her to the point.

Fact is her husband's property  
may be little or nothing by  
the back way in which he put  
it out on usury. This conduct  
has been very shameful.

Miss Finley says Sunday, was  
the busiest day.

Simpson thinks she should  
aided to go away home for  
sake of the ch:-

Mr Walker came today to  
call on Jane. Broth pres-  
ent & kept down. He asks  
for a church letter for the wife

Get. Call on Presley - up  
him & go to Hospital. We  
think of it. Frank's friends &

married - handtumbled body.

This D. says was open a/c and  
no amtg of interest was made  
till this date of Aug 2<sup>d</sup>. L. then  
inserted the bal. and H. has  
unable to pay, at this time. And  
best terms L. would make were  
these, taking p/mt payable  
Aug. 2<sup>d</sup>, adding interest.

Haufen is clear that no

items of the a/c till this 2<sup>d</sup>

of my. Conversation passed  
the time to effect that the int was  
high, and L. justified it by his  
own want of the money; and  
H. submitted to it. unable  
to do anything else.

James Harper

H. says L. gave him  
254 \$ to stock farm  
at 18% - and a note  
added 246 more at same  
rate being 480 in all - and  
now wishes H. to sign a

he may serve God. I desire  
no wealth or fame for him,  
but that he may be a servant  
of the Saviour.

Susanna came to ask me  
to see and comfort her mo. who  
was troubled about affairs at the  
Hotel. Riche having got up  
all the debts at reduced price  
allows that a deduction of 1000  
Lafon made, making  
Mrs Larague gain for that  
considered  $\frac{1}{4}$  share in the Hotel  
to Mrs Laf. Both ladies  
own 6000 £ separately - and  
the Lin a fine 8000. - He  
takes a mortgage for 20,000  
of them jointly, and gives a  
receipt. to Mrs Laf. for 4000 (50%  
on the 8000). Thus Mrs Lar.  
becs. liable for Mrs Lafs.

Mr. Salter calls - polite -  
asks for Mrs J. and Miss Kiddle.  
Wife & I left him to converse  
with his ward, and took our  
dinner. Saw him again. He  
thinks age and debts a great objection  
to Srsr. He told wife he admired the  
simplicity of his daughters -  
the nation friends said he had  
thrown away his money.  
He also said they loved her.  
He asked for his bill, and I

promis'd it for to mor.

Alice tells wife she told him she  
did not wish to return even to  
Zalca.

When wife spoke of something that had  
been report'd to discredit school, he  
ans'd "That is nothing to what was  
told in Laena", implying at Mount  
and in other remarks his dis-  
approval & disbelief of them: and  
you know (as I think he must)  
that Mike was the author and  
spread of them, he is too just.  
He'd not be if he acted on prin-  
ciple.

So too about Jefferson - he said  
he was good young man, doing  
well in bus. & with good prospects.  
But that is a strange way to  
speak of one that had made

the attempt he had to ruin his  
command.

David this p. m. 21 mos. old,  
was nearly half way down hill;  
when we found him.

Mr. Jam engaged a new  
nurse for Johny - Domitilla.

Mrs Marshall wishes us all  
to come to Susan's wedding;  
wife and I both feel that we  
cannot accept of hospitality  
at her hands under present

Friday, Mar. 13/57.

Write Mrs Marshall a letter calling  
attention to her to Jane.

Mr. Carr has paid me 307-<sup>1</sup>/<sub>2</sub>  
of salary - 3<sup>2</sup>/<sub>5</sub> p<sup>ts</sup>. Re 2<sup>d</sup> coin

10  
w<sup>d</sup> like to see me. I went - had  
long conversation. She told James  
letter to her was insulting - Mr. M.  
and Jas. told so too - and had read  
her reply, ref. she sent it. She had  
also sent for Dr. Poye and he had told  
her he had said the things she told  
James he had.

She said Mr. M. heard Dr. Poye say  
to Dr. Petit that Allie had been injured  
by being allowed to eat ~~things~~ <sup>things</sup> ~~straight~~ <sup>straight</sup> ~~or not~~.

She said if James letter to her  
was not meant to charge her  
with ~~contumacious~~ <sup>contumacious</sup> she w<sup>d</sup> ~~over~~ <sup>over</sup> she had  
done wrong, that she desired peace  
so much, that she w<sup>d</sup> ask pardon or  
make any apol. in her power.

She spoke of my not implying  
James - that she had tried to make  
him (w<sup>t</sup> w<sup>t</sup> Dr. Marshall too.  
I said Jas. seemed to know  
more about her edis, and

& use them more independently;  
but that he seem'd hasty & said "nasty  
aided" when he ought not to.

I spoke of his relieving Emma  
Wood, when Dr. Day said I speak  
alone; and that he had found  
what aided Lovie: and that  
in La. illness of my own &  
sometimes that old Cannon him.

Leah's hunting in Loring.

Sat. Mar. 14. 1857.

Note Mrs M. L. G. Jam had  
not understood that Mr M. said  
he had heard Dr. Day say that  
about Allie's food & Petit - tho  
if that had been understood,  
it was no imputation of  
his or her word to ask Dr. Day  
if he said it or why.

I think now Mrs M. see  
that they have been hasty, in

her letter to Jane, and seek to  
make out a defence for her  
letter. I took it and read it  
aloud to them just, and ask  
them what in it they c<sup>d</sup> object to.

A note from Mrs M. to Jane &  
me came this p. m. —  
a cord withdrawal of her  
letter, tho justifying her interp<sup>n</sup>.  
of James to her.

I replied that I wd note on

She Lapped up Stans. I gave

Bernard seems very thankful.

James letter went today saying  
she did not think Caroline  
had made the acknowledgment she  
ought for wrong done, but was  
willing to accept even that. I  
note that she had not done as  
she promised to do. Mr & Mrs M.

both seem cold & distant.  
He turned his back on me  
just bef. the service began - I  
was afraid intentionally.  
However I don't mean to do  
anything that can warrant him  
in feeling wrong done.

I presume, as Mrs M. speaks  
of "flatest Contrad<sup>ns</sup>" that she  
was among at James saying  
that fruit had hurt her Ch<sup>d</sup> -  
and then spoke too fast on a  
subject on which none but the  
most delicate attentions Ch<sup>d</sup>  
have been made - even if there  
had been cutting that the Ch<sup>d</sup>  
had suff<sup>d</sup> from improper food.  
James says she told her "No one  
that he careful but himself - that  
All he best friend that she had  
lost her Chid<sup>n</sup> from want of

case - that Dr. Page had told Petie  
Allan had had in the heart  
to do". How however good the  
instructions were she did her work  
in a most clumsy, wanton and  
angry style.

Further when Jane wrote her  
letter saying Dr. Page denied having  
said so, she became angry at  
that and wrote back a bitter  
and ill-natured reply - justifying  
it on an insult which con-  
stituted out of James.

I incline to think that Jas.  
"Mr James' friends", and Dr. Page  
so far as they have said or  
that any of these things about  
Jona<sup>m</sup>. & Allan, have come at her  
suggestion. Jas. I do not have  
known much of the good faith  
to either of them for his own sake.

for he was not here. Few  
friends knew what the Ch-  
ild & rats. And Page has  
repentingly declared that he  
had not thought even that  
such cause exist for their  
sickness.

Mr W. remarks to me  
that when I Jas. recom-  
mending Jones. The blame of his  
draft was cast on him: but  
when I V. did same for Adams,  
and in deed it was all right.

I told him that was the Monroe

Thurs. Mar. 19. 1857.

Found at Long & Co. I have then about  
3800 \$ coming interest. Paying Moore  
3300 \$, 500 will remain for Building.

160 Aye Omes  
50 Gas. in  
380 Export, special, in Bk. 8%  
200 " open a/c " 6%  
1290.-

This is for Loringstone for Building the  
the house. But as salary has been  
paid as due to mid. of May, and as 100  
lms. till that will use up 150, and  
other items full 75 more, I shall have  
to count on only 1000 toward Loringstone a/c  
at outside. Hence I must sell pine.

If I can do that however for  
500 & int'g oak (wh I have  
concluded to part with 20 as to  
lesser debt as much as maybe)  
for 75 - I shall then be able to draw  
down debt to Moore 250 or 300  
dollars.

Inclined to think I had better part  
with Bank shares. I will ask  
Cervero the prospect.

Blake came to see me today. He  
said from remarks last viz-  
that Blake was over so cordial  
that persons could say things which are  
profane before him & he not  
rebel to them; and that my sug-  
gestion of greater cordiality to  
new comers might lead B. men  
to err in that respect. I told  
him Blake did approve such  
as in Bloomfield's case.

He then stated that he and his  
wife had concluded again to  
let a time for next Septem-  
ber - year hence - that I let  
me know - from it most  
on his chr. I said I wd not  
decide for ano. but used his  
infl. here, the power he exerted  
among the young of L. School, &c  
ano. I not soon attain to,  
and his bus. as belonging

to the Lord Jesus, and affords  
means for doing great good  
here. He spoke of almost en-  
suring those who c<sup>d</sup> set apart a  
portion of their gains for  
good. Urged him to seek to  
know the way of duty & to his  
best-judg<sup>t</sup>, and then back God to  
govern him & control him.

Spoke with Will.<sup>ew</sup> about  
next Sabbath coming. He  
thot, if just rate man, c<sup>d</sup> do  
great good here; but if not  
more harm than good.

Bro. M. Day at study on  
Gal 4/6 "Bec. Sons, God  
sent his sp<sup>t</sup> of his Son in  
hearts crying abba, Father."  
Concl<sup>n</sup>or Adap. is new

Spoken of as preceding a  
man's Commission - fed-  
est & adoption - but only  
adopt when convert & then  
apt given (in add<sup>d</sup> meas.)  
as Sacrament.

Calvin says in his Comm. there  
- 5<sup>th</sup> n. adap. is a stage over  
the divine light of the Jewish  
fathers - and because the  
adoption is, like election,  
cause of gift of apt form  
bringing to God at all. So he  
seems to mean.

But adap. must refer to  
Law that in T as Sons in  
6<sup>th</sup> verse.

His reviews stay my  
dumy in mind.

Mr. Hanson came today with<sup>d</sup> to know of the facts. I told him list of case for. Begging. He ask<sup>d</sup> if Mr. L. was present at the final action of the Ch. That he ought to have been, since right of defence was a case was better than any in writing. I said he had met the Com. various times and heard him gain saying as also from; as well as heard in writing. He still that it to be regret<sup>d</sup> he not been call<sup>d</sup> to say what he had to say.

Mr. H. defended the Spent Ch<sup>g</sup> to Leach on ground L<sup>d</sup>. C<sup>d</sup> have taken up the money; and ought to bear the loss if there was any.

I told him of L<sup>d</sup> Ch<sup>g</sup>'s H<sup>ap</sup> 3<sup>p</sup> - and that it was a comment on Ch<sup>g</sup> & Leach.

Dr. showed the vouchers of Ernst and L<sup>d</sup> & Co for the

11 1/4 per cent, on cash advanced,  
seen Dupuis when I said L. rep-  
resented 10% as purchasing  
Corn. in England. He wanted  
2 1/2 p. ct.

He called the invoice & quantities,  
charges 25% profits & make up the  
charges, an "indiscution".

I replied that he called it very  
mild - for it was really a "lie".

He was very much to see that in-  
voice. I promised to try & get it.

He spoke of "what he wish to do in  
matters" - of the better party's raise in  
London, and hence difficult in  
Paris as he wish.

I told him as a member of  
the Church he had ought to ask,  
but that my wish was for his family  
to save them from a mistake.

I said if he induced L. to  
own his fault, it would be a great  
good to his soul.

He complained of what Miss  
of the Ch had said, as also

having interposed an obstacle  
to his going about what he wish.

He said he had reach Egypt  
that the Ch. had call him to go  
for violating Sabbath. I said it  
was no fault of the Ch.

Every thing betokens dear father's  
departure. I see him as I saw  
him in 1850 dear kind, loving  
old man. I think of this, those  
good letters. I think of the zest  
with which he read every thing we wrote  
him - And now fear it is  
all at an end. God has been  
good in giving us such a  
father & keeping him so  
long among his family, a good  
opinion, a monitor of  
love. I fear I shall never  
hear from him again. Oh  
I have been at home & stayed  
by his dying bed!  
Not far & bright. Letter from
